

## 2 x HP745A / HP746A AC Calibrator

Output voltage variable: 0.1mV to 1099.999V in steps as small as 1ppm

Continuously adjustable frequency output: 10Hz to 110KHz

Basic accuracy's for 1mV to 100V range:

±0.02% (50Hz to 20KHz);

±0.5% (20 to 50Hz, 20 to 110KHz);

±0.2% (10 to 20Hz)

This unit provides output voltage variable from 0.1 mV to 1099.999 volts in steps as small as 1 ppm.

A compact, calibrated AC source with continuously adjustable frequency output from 10Hz to 110KHz.

Basic accuracies for the 1mV to 100V range are as follows: ±0.02% (50Hz to 20KHz); ±0.5% (20 to 50Hz, 20 to 110KHz); ±0.2% (10 to 20Hz).

Accuracy is reduced slightly on the 1000 V range

**Preis: 550 Euro zzgl. MwSt und Versand pro Stück**
